

2019 Annual General Meeting & Educational Assembly

The Future of Women in Medicine & Healthcare *Our Aptitude and Our Influence*

September 20-22, 2019

Ottawa Art Gallery

Overall Learning Objectives

At the end of this session, participants will be able to:

- Develop and enhance leadership skills for women in medicine;
- Acquire leadership lessons and tips directly from recognized women leaders in medicine;
- Identify important developments in women's health and where gaps still currently exist;
- Develop professional and social networks between physicians;
- Arrange mentoring between physicians and residents/medical students.

Session Specific Learning Objectives

Dr. Lisa Calder – Future of Women in Medicine

At the end of this session, participants will be able to:

- Identify key milestones in the progress of women in healthcare;
- Describe overall trends in healthcare human resources;
- List three needs to improve the engagement of women in healthcare improvement.

Dr. Angel Arnaout – Breast Cancer: Advances in Management

At the end of this session, participants will be able to:

- Describe the latest standard in oncoplastic breast cancer surgery.

Drs Barbara Lent and Cheryl Levitt – The Gender Lady Documentary Screening and Q&A

At the end of this session, participants will be able to:

- Reflect on current advocacy efforts and aspirations for the future;
- Identify the role of gender in health and the role women physicians play in Canadian health care;
- Discuss how film can enhance learning about and teaching of social justice such as gender issues and their impact on health;
- Describe the way the film helped identify personal goals and ambitions.

Gender and Health Panel

At the end of this session, participants will be able to:

- Summarize the growth of gender and health as both an area of focus and lived experience for women physicians;
- Discuss the challenges in gender and health in contemporary medical settings.

Dr. Angel Foster – Abortion, politics, and the pill that promised to change everything: The global journey of mifepristone

At the end of this session, participants will be able to:

- Describe the global journey of mifepristone;
- Identify challenges to expanding access to medication abortion;
- Describe strategies to overcome barriers to abortion care.

Dr. Danielle Martin – The Future of Medicine: How Women Physicians Can Help Lead the Revolution

At the end of this session, participants will be able to:

- Provide an overview of Canada's most pressing health care challenges;
- Identify the opportunity to re-design our current models of care;
- Highlight how digital health and virtual care are powerful tools to improve health care;
- Illustrate how women physicians can help lead health system transformation in Canada.
